A unique easy forward-tilting system helps you clean the robust dividing assembly without effort, saving time every day.

Interchangeable dividing disc (within 5 minutes) offers increased flexibility, a work range of 16-250 gr. and tilts forward for easy cleaning.

A heavy counter-weight provides stable footing. No damper is required and the stability of the machine protects the floor and adjacent furniture, at the same time it is easily moved.

The anodized coated aluminium dividing disc and stainless steel knife require minimal flour for dividing and are hygienic in use..
