

## DR Robot Variomatic

Divider rounder with electronic control panel and interchangeable dividing disc

- Hydraulically assisted divider rounder with user-friendly control panel and simple two-hand operation
- Programmable pressing and rounding times for higher operator productivity
- Variable rounding speed in combination with variable rounding stroke to match special dough types
- Regular shaped and consistent dough products as a result of accurate rounding time programming
- Complete set of adjustable parameters leading to better products; especially when various interchangeable dividing discs are used
- Divide-only, press-only and cleaning positions
- Easily interchangeable dividing disc with maximum flexibility for work ranges from 16 to 250 gr.
- Unique easy forward-tilting system provides user-friendly, efficient and safe opening for cleaning
- Powered dough dividing and rounding action with easy and simple weight adjustment
- Energy efficient due to automatic motor switch only operating when machine is rounding
- Extremely stable due to heavy 80 kg iron foot counter-weight with overhang and widely placed wheels
- Cast iron footing on wheels provides flexibility together with extra stability
- Three lightweight synthetic rounding plates included
- Stainless steel dividing knife
- Coated anodized aluminum dividing disc
- Stable, smooth and quiet in daily operation
- Easy cleaning with minimum maintenance required

Power 1.3 kW, 3-phase, net weight 380 kg  
WxDxH 62 x 67 x 160 cm

A low pressure dividing system respects the dough and requires no physical effort from the operator.

Interchangeable dividing disc (within 5 minutes) offers increased flexibility, a work range of 16-250 gr. and tilts forward for easy cleaning.

On the Variomatic product quality is increased by additional parameters matching dividing discs with dough type; rounding speed and rounding stroke. The weight setting is programmable through the control panel.

There is a choice out of seven anodized coated aluminium dividing discs with stainless steel knives. The discs require minimal flour for dividing, are hygienic and can be cleaned in a dish-washer.
